

TWO SLUDGE BUSTERS

Lagoon Tabs for Lagoons & Ponds

ARE BETTER THAN ONE!

NEW Mini-Tabs, Sized for Hog Pits

Lagoon Tabs

Eliminates Sludge in Large Ponds!

THE MUCK STOPS HERE –

Don't let your swine, poultry and dairy operations get stuck in the muck. **New** powerful, cost-saver SLUDGE BUSTER™ Lagoon Tabs aggressively treats muck and organic sludge in large ponds and lagoons. Each Lagoon Tab contains seven natural strains of slow-release beneficial bacteria that effectively downgrades and removes harmful muck, digests organic sludge and decay, eliminates animal waste solids and murky water and reduces ammonia nitrates, phosphates and odor. And Lagoon Tabs work in cold weather. Most importantly, SLUDGE BUSTER Lagoon Tabs are 100% safe for fish, pets and wildlife.

IN LAGOONS AND PONDS!

Swine, dairy, and poultry operations including egg-wash processing produce wastewater contaminated with biological solids, fecal matter, feathers, shells, and egg breakage. They rest on pond surfaces creating a blanket of sludge that reduces water capacity, creates odor, and can damage aeration systems. Each 4-pound jar contains 64 one-ounce tablets. 16 tabs treat a ¼ acre of pond surface at an average depth of 4 feet. Distribute tabs evenly across water, repeating treatment every four weeks. Bust muck away and enjoy great value too. **Start your lagoon restoration now, with powerful SLUDGE BUSTER Lagoon Tabs.**

Powerful Treatment. Powerful Value.

Sludge Buster Lagoon Tabs & Mini-Tabs available from:

204 Muirs Chapel Road ~ Suite 200, Greensboro, NC 27410
